

ISIS - Feature #1787

Sync MESSENGER Kernels

2013-10-16 04:42 PM - Kris Becker

| | | |
|---|--|--------------------------|
| Status: | Rejected | Software Version: |
| Priority: | Normal | |
| Assignee: | Kris Becker | |
| Category: | Infrastructure | |
| Target version: | N/A | |
| Impact: | MESSENGER team needs continual update of recent/up-to-date kernels to process and evaluate recent images downloaded from the spacecraft. | |
| Description | | |
| We provide MESSENGER Ck/SPK kernels to the team. This will need to be resumed. | | |
| We will pull the pertinent kernels from the MESSENGER/MDIS site reconstitute them into ISIS and push them to our rsync servers for download by team members and the general public. | | |

History

#3 - 2015-05-11 12:24 PM - Tammy Becker

- Status changed from New to Acknowledged

#4 - 2015-11-10 11:03 AM - Kris Becker

- Status changed from Acknowledged to Rejected

- Assignee set to Kris Becker

Mission is done and all kernels are available in ISIS.
